AFFAIRS OF THE RAILWAYS.

C., B. & Q. Stockholders. CHICAGO, May 16 .- The stockholders of the Chicago, Burlington & Quincy railroad met at the company's office to-day. There was a very full attendance, the object of the meeting being to elect a board of directors, who will meet next week in Boston to elect officers for the company. The most important matter of business which came up was

the preparation of a resolution commending the present officers for the stand taken in the late strike. After a little discussion the resolution was passed and the present board of directors was re-elected. Next week they will meet in Boston and select officers for the coming year.

Personal, Local and State Notes. N. E. Chapman, representing the Midvale Steel Company, of Philadelphia, is in the city, calling on the master mechanics at the several

T. A. Laws, foreman of the company's shops at Cleveland, succeeds Wm. Garstang as master machanic of the Bee-line at the Brightwood

Frank Wilson has been appointed the representative of the Baltimore & Ohio passenger de-partment in central Ohio, with headquarters at

An inspection and weighing bureau was es-tablished yesterday at Toledo, similar to the one in Indianapolis, and to-day one will be established at Detroit.

The Vanderbilt and Pennsylvania lines have issued a notice to the effect that the rate on their east-bound vestibule trains after May 26, would be advanced \$1.

The Electric Age, in its last issue, shows that 130 miles of electric railroad are now in operation in this country, and that 150 miles are in course of construction or contracted for. At the present time but one engine a month is being turned out at the shops of the Pennsylva-

nia Company in Fort Wayne, against three a month at the corresponding period in 1887. The Louisville, New Albany & Chicago has secured, through two of its northwest connections, a contract for carrying 2,500 Knights of Pythias from Chicago to Cincinnati next month.

The Ohio & Mississippi people have just placed in service a monster passenger engine, built entirely in their own shops. The drivers are five feet six inches; cylinder, 18x24; weight, forty-

in twenty four and a half hours.

Tourists' tickets to Lake Maxinkuckee were placed on sale yesterday at the Union Depot. For the round trip, going Saturday and returning Monday, the rate is \$3.35. Round trip tickets good for ten days are \$4; good until October

Eight freight cars belonging to the Louisville, New Albany & Chicago road, which were standing on a side-track just out of New Albany, caught fire from a passing locomotive, on Tuesday night, and were burned, leaving nothing

H. C. Diehl left last evening for Chicago and from there he will go to Buffalo, New York and Boston to make arrangements for establishing agencies in those points. It will probably be about the 1st of July before the Interstate Dispatch is in first-class working order. The pay-rolls of Paymaster Comstock, of the

Bee line, show that there are 6,380 persons in the employ of the company. It is stated that the salaries paid by the Bee line in all departments of service will average 7 per cent above those of most of the Indianapolis lines. The Pennsylvania Company has recently

built at their shops in Altoona, a fifty-ton car aspecially adapted to carrying wire cables for street railroads. The car rests on sixteen wheels, weighs 51,800 pounds, and when loaded is heavier than any locomotive now running. On Sunday the Indiana Midland will connect

its tracks with those of the Vandalia (T., H. & L division) near Brown's valley, and for the present will use thirteen miles of the Vandalia tracks to reach its Sand Creek coal mines. By Detober it expects to have its own tracks com-

The Toledo, Peoria & Western, which has had such a struggle for existence, begins to show better earnings. In the first week of May \$15,-294 were earned, an increase over the corresponding week in 1887 of \$1,265. In the same time the Ohio & Mississippi earned \$72,606, an

J. D. Campbell, of New York city, general colicitor of the Ohio, Indiana & Western road, is in the city. He states that the situation with the O., I. & W. begins to look brighter, and there is no longer any question as to the reorganization scheme being carried out as at first arranged, aside from the Cincinnati, Sandusky & Cleveland being a part of the system.

Two large freight engines (Baldwin build) passed south over the J., M. & I. road yesterday. They were for the Louisville Southern road. One engine bore the name of "Col. Bennett Young," and the other that of "W. H. Dillingham," both being named after persons who were instrumental in building the road, which has but recently been opened for busi-

The Chicago east-bound lines, as well as the Indianapolis lines, are doing more business than at the corresponding period last year. although there is some complaint about earnings. Last week the eight lines forwarded 23,874 tons of freight, against 16,265 tons in the corresponding week of 1887. The Pennsylvania lines carried 31.4 per cent, and the Vanderbilt lines, 50.5 per

Roadmaster Witty, of the Union tracks and Belt road, is fast getting the new system of tracks approaching the Union Station into shape ching the Union Station into shape. It is said by experts to be the best arranged system in this country. As soon as the work is completed the Union tracks from East Washington street to Tennessee street are to be laid with new steel rall weighing seventy pounds to

The promptness with which the pay-cars are moving over the lines, regardless of the socalled light traffic and smaller carnings, is a matter which calls out favorable comment. A few years ago, when traffic was light, pay-cars frequently were late coming round, and, in nu-merous cases, pay-rolls dropped behind two to three menths, but time demonstrated that in order to get good service prompt payment of

Jacob Ela, one of the best knewn locomotive engineers in this section, died quite unexpect-edly yesterday. For four years past he has been running one of the Belt road engines in order to be at home with his family, as he was somewhat advanced in years. For twenty years prior to coming onto the Belt road he ran an engine on the Cincinnati, Hamilton & Dayton road, and he was considered one of the most competent and careful engineers on Indianapolis roads. His remains will be taken to Dayton, O., for burial to-day.

President Cleveland has signed the bill for the construction of the Ohio Connecting railway bridge, over the Ohio river, at what is known as Cork's Creek. This branch road will pass over the bridge that will connect the Pittsburg, Fort Wayne & Chicago and the Panhandle lines, and will be used by the Pennsylvania Company in getting in and out of Pittsburg. M. J. Becker, chief engineer of the Pennsylvania Company, has been working on the plan for three months. Work is to be commenced on the structure at once, and is to be pushed vigorously. It is ex-pected that it will be two years before it is com-pleted. All freight which now passes through the tunnel will then pass over the new connec-

The rate war between Chicago, Cincinnati, Louisville and Indianapolis has been in progress three weeks, and there are still no signs of a let-up. While the Louisville, New Albany & Chicago have had their say through the press, the Pennsylvania Company, until yesterday, has assigned no reason for inaugurating the fight. One of the officers makes the statement that for several months past tickets of the L. N. A. & C. road have been obtainable at the offices of the scalpers at either of the places named, at cuts varying from \$3 to \$4 on a ticket. Every effort was made to have the various forms of tickets on which the rates were cut taken off the mar-ket, but these efforts all failed. He also said: "As our business was gradually drifting away, because of the difference in rates, we decided to meet the cuts and protect ourselves. The rates we make have been made public. The grievance against our line is the fact that we did make them public, and open to all travelers. They are approximately the same rates that can be obtained indirectly through certain classes who knew the ropes."

The Undertakers' Meeting.

The State Association of Funeral Directors continued its annual meeting yesterday. In the morning the members visited Kregelo's establishment and witnessed a demonstration of embalming by Prof. T. A. Sullivan. In the afternoon they met at Wright's Hall and heard the report of officers. The treasurer reported that \$324 had been received during the year in the way of initiation and dues. The quiz-class, conducted by Mr. F. W. Flanner, brought out several interesting discussions. The manner in which the class is conducted by the association is somewhat peculiar. Some one is appointed each year to have charge of the class,

and to him any one of the association may apply during the year for information. These interrogations are dropped into a box, which is opened at the annual meeting; and the questions read and discussed. Officers for the ensuing year were elected as follows:

President—Dexter Gardiner, Vincennes.
Vice-President—C. J. Buchanan, Indianapolis.
Secretary—P. H. Zaph.
Treasurer—Charles Wohl, Logansport.
Delegates to the National Convention at Cineinnati in October—F. W. Flanner, S. R. Lippencott and O. W. Davis.

THE ORDER OF ODD-FELLOWS.

Meeting of the Grand Lodge-The Address It Heard and Business It Transacted.

The Grand Lodge I. O. O. F., of Indiana, met in semi-annual session yesterday morning at 10 o'clock with 800 delegates from the subordinate lodges in attendance. Many of the delegates are representative men of the State. Among them are L. M. Campbell, Danville; C. P. Tooley, Bloomington; George Ford, South Bend; J. B. Kimball, Kendalville; C. B. Cooper, Anderson; Richard Berger, Muncie; W. H. De Wolf, Vincennes; J. A. McAlpin, Evansville; A. H. McQuiddy, New Albany; J. E. C. F. Harper, Madison; John Yaryan, Richmond; W. W. Canada, Winchester; T. E. Bradshaw, Thorntown; R. L. Higgenbothen, Delphi; W. H. Jacks, Logansport; Peatt J. Wise, Fort Wayne; Lawrence Gates, Angola; Gen. A. G. Milice, Warsaw; J. F. Wildman, Muncie; W. H. M. Cooper, Muncie; W. R. Myers, Anderson; James B. Kenner, Huntington; Ed S. Porter, A. B. Bennett, Greensburg, and many others. The Grand Lodge represented more lodges and a stronger brotherhood in Indiana than ever before reported.

Louis T. Michener, the grand master, presided. He delivered a very interesting address in greeting the representatives. Encouraging reports, he said, came from all sides, and all signs indicated that the year 1888 would be a memorable one in the history of the jurisdiction. It had been his policy not to grant dispensations, except where he was satisfied the order would be benefited generally. Dispensations were granted during the last six months for new lodges at Salem Center, Lincolnville Georgetown. Charters were also Competitors of the Ohio, Indiana & Western and the Chicago & Alton will have to look to their laurels. A passenger over these lines is now carried from Columbus, O., to Kansas City

issued for Rebekah lodges at Deerfield, Idaville, Mt. Carmel, Oaktown, and at Peru. He spoke very highly of the Rebekah Degree. It had developed great strength in all respects. Besides the new lodges instituted the Greenville Lodge had been reorganized. The lodges at Whitewater, Clermont and Muncie surren dered their charters during the last six months In closing his address, the grand master spoke eloquently of the members who had died during the six months, and recommended the appointment of a memorial committee on the death of Thomas Underwood, P. S. Rep., and D. W. La Follette, P. S. Rep.

Following this address the semi-annual reports of the grand officers were submitted. Grand Secretary B. F. Porter reported that the increase in membership during the six months was 750, which added to the gain for the preceding six months, made the total gain for the year 1,940. During the same period there were 2,987 initiations. In the matter of relief the order had done much. During the six months 1,647 brothers and 162 widowed families had been assisted. The sum of \$33,322.37 had been paid for the relief of the brothers, and \$2,830.16 for the relief of the widowed families; \$446.76 was expended for the education of orphans, \$10,574.79 for burying the dead, and \$3,467.29 for other charitable purposes, making the total amount for relief \$50,651.28. After submitting the figures Mr. Foster said that in that branch of the report was found the secret of the success the order-its care for the sick and suffering-its protection of widows and orphans. In concluding the grand secretary said: "Our statistics are gleaned from some 550 lodges, in all of which the imperative command of our laws, 'to visit the sick, to relieve the dis-

tressed, to bury the dead and educate the orphan, has been obeyed."

The number of effective lodges in the State was reported at 552, against 551 for 1887; total net menbership in Indiana, 28,210, against 27,-460 a year ago; ladies receiving the Degree of Rebekah, 705; resources of the lodges, \$1,661,024.66; receipts of lodges, \$140.113.46; expenses of lodges, \$65,484.74. Of the Rebekah Lodges

the total membership is 6,769 (Jan. 1), against 5,464 for the preceding year.
The report of Theo. P. Haughey, grand treasurer, showed a balance in the general fund per last report, of \$11,057.39; receipts, \$8,306.58; total, \$19,363.39; balance remaining, \$11,342.64. Among the assets of the Grand Lodge are \$32,-000 in stock in the Grand Lodge hall and a balance of \$6,852.48 in the hall fund. The

trustees of the hall reported rents collected, \$4,920.20; dividends paid, \$12,407.50; improvements to the hall, \$1,056.25. The afternoon session was almost wholly consumed in disposing of the appeals from subordinate lodges. A very exciting discussion occurred over adopting the action of the commitlodge expelled a member for engaging in the liquor traffic, and appealed to the Grand Lodge committee on appeals. The committee, after wrestling with the case three days, finally reversed the action of the subordinate lodge, and restored the saloon-keeper to his membership in the lodge. The action of the committee met with very decided opposition in the Grand Lodge, and after discussing the question two hours the action of the subordinate lodge in expelling the member was approved. After disposing of considerable routine business, a special memorial committee reported upon the death of D. W. La Follette,

grand master, deceased. The lodge will complete its session this forepoon. It is expected that there will be quite a discussion on the matter of indorsing the Odd Fellows' Protective Association, which the Grand Lodge refused to inderse six months ago. Last night the delegates were entertained by the Indianapolis Lodge at its new ball on Virginia avenue. The new hall will be dedicated this afternoon, and it is expected that all the officers of the Grand Lodge will be present and take part in the exercises.

THE INSTITUTE OF HOMEOPATHY.

Doings at the Annual Session-Address of President and Papers by Members.

The Indiana Institute of Homeopathy met yesterday in its twenty-second annual convention in Plymouth Church. The officers of the association are: President, F. L. Davis, Evansville; treasurer, J. S. Martin, Muncie; secretary, J. D. George, Franklin. The morning was chiefly devoted to the business of the organization, the treasurer's report, showing a balance of \$41.68, being submitted. A number of new members were elected. After this the president delivered his annual ad dress. He said: "Since the time when Esculapius lived there has been a wonderful change in the medical art. Hippocrates, how ever, is known in history as the founder of medical science, he being the first one to disassociate its practice from the priestcraft, and to direct exclusive attention to the natural history of disease. Medical progress, however, was slow until after the invention of printing, which developed it in a wonderful manner. The speaker then referred to different men who had been immortalized by their discoveries in medicine, such as Harvey, the discoverer of the circulation of the blood, and Hahnemann, the founder of homeopathy. He praised the work of the latter in the highest terms. He said that his disciples had now fourteen well-equipped medical colleges, more than 8,000 alumns, commanding the patronage of 10,000,000 persons. There are in the United States 150 homeopathic medical societies, forty-three hospitals, general and special, having a capacity of 4,239 beds. There are medical journals and medical literature equal in character to that of any profession. Dr. Davis then spoke of the literature and discoveries of his school and of the great advancecoveries of his school and of the great advancement that was being made, saying that it had taken the hardest knocks, persistently followed up, coupled with great sacrifice, pain and herculean energy, to create and build up a new materia medica, but that the light of truth was gradually spreading. Homeopathy has stood the crucial test, the trial of persecution and has lived, flourished and prospered, and now occupied an honorable position on advance ground, supported by substantial truths that shine as a brilliant star. Any man who is thoroughly versed in all other branches of medical science and will follow out strictly in his practice the law expressed by the formula "similia similibus curantur," will have no cause 'similia similibus curautur," will have no cause to discard to-morrow what he practices to-day. In the best circles of society he will be in de-mand everywhere. In conclusion Dr. Davis urged that the members of the profession take a timely interest in their societies everywhere and strive at all times to advance their interest. During the morning session letters of regret from Dr. William Owens, of Cincinneti; Dr. L. Clifford Mitchell, of Chicago, and Prof. H. C. Alles, of Ann Arbor, were read; also, a con-

gratulatory telegram from the Minnesota ate Homeopathic Institute, which is now in sept. Dr. G. W. Bowen, of Fort Wayne, read mu-morous poem, subject, "Our Semi-demese, and Their Search for a Mythical Cure," sich was well appreciated by the society.

The first paper in the afternoon was one om Dr. J. D. George, of Franklin, who thoughtat homeopathic remedies were superior tall others in the treatment of certain diseases.Dr. George's paper was listened to with mucin-terest and called out quite a vigorous dius-sion, in which Drs. E. P. Jones, E. B. Groen-or, D. T. Boyd, D. Haggart, O. S. Runnel E. W. Sawyer and a number of others took art. Several other papers were read, one by I. J. F. Thompson, of New Castle, on "Clical Cant," one by Dr. Wm. Rowley, of Indiapolis, on "Cases from Practice," one by Dr. Haggart, of Indianapolis, on "Stumbling Blks in the Way of Homeopathy," and one by D.E. W. Sawyer, of Kokomo, on "Cases from Inc-

The meeting will continue to-day, in whic a number of papers of importance will be read

Affairs of the Gas Trust.

The different committees which have len canvassing the city in the interest of the (nsumers' Gas Trust Company, held a meeng last night at the Builders' Exchange. All ofhe committees made reports save four, and the were instructed to report to the executive cnmittee. The committeemen claimed that abut per cent. of those to whom thy had applied promised to use Trust ga. The directors of the company have awarded te contract for the construction of the high-presure mains within the city. There were st bidders, J. C. Gibney & Co. being successfu They have given a bond of \$10,000, and stip-lated to employ none but home laborers. On thousand men, it is said, will be employed upo the work. The work has already begun in th vicinity of the Union Depot.

THE peculiar combination, proportion and preparation of Hood's Sarsaparilla makes this medicine different from others and superior to them all in actual curative power. Sold by all druggists. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

DIED. ARNOLD-Wednesday morning, May 16, at 2 o'clock, Charles Arnold. Funeral from 93 Arsenal avenue, 2 p. m., May 17. Friends invited. Of the letting of the contract for the erection of a building for the School for Feeble-Minded Youth for the State of Indiana.

Sealed proposals will be received at the architect's office, in the city of Fort Wayne, Allen county, Indiana, until 10 o'clock a. m., May 31, 1888, for furnishing all materials and labor required in the erection and completing the inclosing of a new School for the Feeble-Minded of the State of Indiana, located at Fort Wayne. Allen county, Indiana, according to plans and specifications for the same as furnished by Wing & Mahurin, architects, Fort Wayne, Indiana.

Plans and specifications may be seen at the architects' office on and after this date. Said building will be required to be fully inclosed on or before January 1, 1889.

All proposals must be accompanied by a good and satisfactory bond, payable to the State of Indiana, in the penal sum of \$20,000, as set forth in the laws of the State of Indiana. Bids to be made on blanks furnished by the architects. Estimates will be made every thirty days, less 10 per cent. BRADLEY, HOLTON & CO The Trustees reserve the right to reject any or al 177 to 181 E. Washington St., Indianapolis, Ind. By order of the Trustees.

DAILY, SUNDAY AND WEEKLY.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal By the display of enterprise and strict attention to the wants of the reading public, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspa persof the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of impor tance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and pubishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the princips cities of the country. It has been, and will in future be, the aim of the publishers to make the Indian-APOLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contemporaries. The approach of the great campaign of 1888 renders it desirable for every citizen to have a first-class newspaper; in fact, it will be impossible for him to keep fairly abreast of the times without such a paper Great political battles are to be fought in the State and Nation, and their conduct and progress the Joun-NAL will carefully record. No Indiana reader, cer tainly no Indiana Republican, should be without the JOURNAL in the coming campaign. While it is thor oughly and soundly Republican in politics, devoted to the interest of the Republican party, the JOURNAL will not allow its news to be colored by partisan bias but will give the news of the day without fear or favor. The present session of the national Congress will be among the most important held in recent years, and questions of great national moment will be considered. Every citizen is interested in the pending legislation, and can keep himself thoroughly posted by a perusal of the JOURNAL'S news columns, in which the doings of Congress will be fully reported. In addition to its news features the JOURNAL regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special ar-

rangements have been made for features of this

character, which will appear in the JOURNAL during

the coming year. These appear most largely in the

SUNDAY JOURNAL, which is a special edition, and can

be subscribed for and received exclusive of the DAILY

(THE WEEKLY EDITION),

One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. It is a complete compendium of the news of the wesk, ac companied by the latest market reports and special departments devoted to agricultural, horticultural and household topics. It is complete in every depart
